# Problem Solving

Solve the problems below. Use 2-3 math strategies to show your thinking. Refer to the "Ways to justify, defend, and prove my answer" document under math on our Homework page on the Schoolwire website.

1. If there are 4 wheels on a car, how many wheels does 6 cars have?

2. If a duck has 2 legs and a cow has 4 legs how many ducks and cows could there be if there are 12 legs total?

**********Challenge**********

3. Skip count by 5's until you get to 80. In the real world, I count by 5's when I count _____.
