

Week of January 22nd

Problem Solving

Solve the problems below. Write a number sentence and use 2-3 additional math strategies to show your thinking. Refer to the “Ways to justify, defend, and prove my answer” document on Schoolwire for ideas.

1. Johnny has a collection of trading cards. He has 47 cards in his Texas Ranger collection and 34 cards in his Dallas Cowboy collection. Johnny is trying to determine which set has the least amount of cards. Which set has the least? Explain to Johnny how you determined which set has the least.

2. Katelyn has 19 grapes. Landowyn has 5 fewer grapes than Katelyn. How many grapes does Landowyn have? Write a number sentence and explain your thinking.

*****Challenge*****

When the ice cream truck comes, you can get a double dip cone. They only have two flavors, vanilla and chocolate, but you can have our double-dip cone 4 different ways. What are those four different ways?
