Problem Solving

Solve the problems below. Use 2-3 math strategies to show your thinking. Refer to the "Ways to justify, defend, and prove my answer" document under math on our Homework page on the Schoolwire website.

1. Gracie had 10 apples. She has 2 left after giving some to Greyson. How many apples did she give to Greyson?

2. Nolan picked 3 apples on Monday. He picked 6 apples on Tuesday and 9 apples on Wednesday. If this pattern continues, how many apples will he pick on Saturday?

**********Challenge**********

Patrick has 16 candies. Some are lollipops, some are chocolate kisses, and 7 are pixie sticks. How many could be lollipops? How many could be chocolate kisses? How many different answers can you come up with?
