

ROCK HILL

Girls' Basketball

MARCH NEWSLETTER

Stephanie Shaw

Dear Rock Hill Friends & Family

I am so excited to be a part of the Blue Hawk nation that is being built here on the Hill. Coach Little, Coach Toth, and Coach Humble has done such a great job of putting together the most amazing group of coaches and teachers to lead Rock Hill into 2020-2021. I am honored to be on the ground floor of building the girls' basketball program here. With this unusual time right now I hope this newsletter will keep parents and players informed and up to date. Let me introduce myself, I am Stephanie Shaw. I have had the privilege of being both a head coach at the high school and college level, having won a state championship as a player in high school and also coached a team to the state finals. I understand what it takes for a team to finish on top and also the heartbreak of coming up short on the big stage.

Along the way I have come to understand that basketball isn't about winning and losing, It is about who we become along the way! I believe that athletics is a tool that should be a reflection of life, in order to prepare student-athletes for the trials and tribulations they will face in their lives. The culture we will build here at Rock Hill will be one based around our core values and that we know our players will carry throughout their lives.

Players until we are able to meet in person we will use Zoom, Google Classroom, and the SportsYou app to get information to you. Sign up information and my email address is on the next page. If you have any questions, please reach out.

Coach Shaw

Meet the Staff

Sarah Edwards

Varsity Assistant

Hey y'all! My name is Sarah Edwards and I am beyond excited to be a Blue Hawk and to have the opportunity to work with Coach Shaw on the court. I am a certified English Language Arts & Reading teacher and have been coaching basketball for several years now in Plano, TX. I love the game of basketball more than anything and have been playing my entire life. I coach with characteristics I value most in the forefront: faith, family, encouragement, hard work, and empathy. I feel strongly about the lessons and values of the game that are taught to players, and I hope they will help students to succeed both on and off the court. I believe it is important for athletes to model leadership and compassion, and this process starts with coaching. My love for the game and for working with players is driven by the desire to impact young lives and motivate others to succeed, beyond mediocrity. I cannot wait to work with the Rock Hill team of athletes, staff, and community. This school is destined for great things and I am ecstatic to be part of a school district that is dedicated to challenging students academically and building them up to be profound leaders of the community!!
