

Download an Application

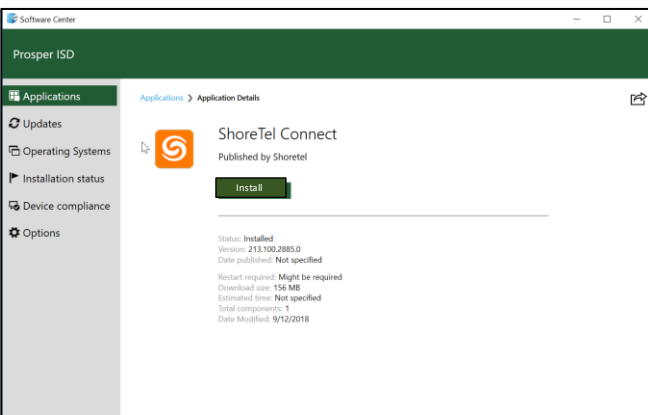

(from Software Center)

1. Click on the **Software Center** tile on the Windows 10 desktop.

2. Use the **Search** box to enter the name of the app.
3. In this **example**, “Shoretel” was entered.
4. Click on the icon representing the app needed to be installed.

5. Click on **Install**.

The install should start automatically. A message will be displayed. You may see the following states:

- **Installed:** Software Center already installed this application on this computer.
- **Downloading:** Software Center is downloading the software to install on this computer.
- **Failed:** Software Center encountered an error in trying to install the software.

Please contact the HelpDesk (14101) or helpdesk@prosper-isd.net if any assistance is needed.
